strategies to take control of your mental state while trading. Trading psychology shares equal importance with money management and the trading system and yet most traders remain unaware of the importance of taking into account their trading psychology when designing a trading system. What traders need is an unambiguous trader psychology system that can easily slot into whatever system they are trading and enable them to trade their system according to their trading plan. Control Your Inner Trader draws on the experience of an eight-year trading veteran who is also a qualified therapist. Behavioral and therapeutic techniques are included in the book that are easy for anyone to follow. Reader Reviews QCD Well worth the time and money... Reviewed in the United States on 31 October 2016 Ms. Thomas makes some analogies in her books that I have NEVER read in other trading psychology books. Excellent. Well worth the money. This book, combined with "Overcome Your Fear in Trading" are most excellent. Made me want to look into some of her other works. I was not disappointed Alan 5.0 out of 5 stars A refreshing new angle on how to improve trading results. Reviewed in the United States on 17 November 2013 Few trader psychology books deliver on sufficient tools. This book is surprisingly different. Despite being short compared to other well-known top trader books as "Trading in the Zone by Mark Douglas" and "Trading for a Living by Alexander Elder" I must say that "Control Your Inner Trader" is definitely among the better ones. Any trader who believe that he or she can improve despite even good results will find this book have a refreshing new angle on how one can improve behavior and become a much better trader. This book is time well spent. Patrick Higdon Great Book! Useful, quick and to the point! Reviewed in the United States on April 25, 2018 Useful, quick and to the point. I highly recommend this book to anyone experiencing trading frustrations. Many times the first thing we question is our "system" or methodology when the greatest obstacle to success is ourselves, our "Inner Trader." This book is worth a read of you're just starting out or have been trading for a

long time. Alastair Forres Very helpful book indeed, in a difficult subject area Reviewed in the United States on January 13, 2014 For a short book, I found more practical solutions for erroneous mental habits whilst trading, than you might ever imagine. This is (for me) the most difficult area of trading and the author LR Thomas has got right the nub of issues with no fluff or filler. I am adopting parts of this book as my mantra.

The most prevalent emotion facing traders is fear. Fear causes traders to exit trades too early ruining their equity curve. Fear causes traders to self-sabotage so they can fulfil their self-fulfilling prophecy of trading failure. Fear causes traders to find reasons to avoid taking trades that would have been winners. Fear causes traders to exit trades before they have a chance to get the move under way and then have the misery of seeing a profitable trade run away from them. There are many more destructive aspects to fear in trading and what is vital for the trader in order for them to succeed is to have a way of thinking about trading that eliminates fear from the trading process. Overcome Your Fear in Trading is the companion book to the best-selling 'Control Your Inner Trader' and zeroes in on the single biggest problem traders face, their own fear. The book has been written by a therapist qualified in hypnosis, EFT and NLP who is also a trader with over eight years trading experience. Overcome Your Fear in Trading provides lots of exercises to specifically help with the problem of fear and is designed to give you a new paradigm about trading that will not only enable you to trade without the negative effects of fear but will also enable you to become a much better trader in the process. ""I, too, bought LR's book "Overcome Your Fear in Trading" the moment it appeared and I was delighted I did. The author has a happy knack of getting to the core of trading issues, both from the system perspective and the psychology side. But even better, LR provides workable solutions in this book based around focusing on the Process rather than the Results. This is already helping to clear

my head trash and to laying the foundations for a better way of thinking about my trading. It is the clarity and her deep perception of the human condition in LR's thinking and writing that makes her books really useful.""" Thank you so much, LR. Alastair Forrest UK

In these three best-selling trading psychology books you will find practical, immediately usable strategies to improve the way you trade. Control Your Inner Trader, Overcome Your Fear in Trading and How to Stop Over-trading have five star reviews because they solve a traders' pressing problem of how to take control of their trading. They offer implementable solutions, unlike most other trading psychology books which are overly complex and vague. They draw on the experience of a trading veteran who is also a qualified therapist. Behavioral and therapeutic techniques are included are easy for anyone to follow. Amazon Customer 5 Stars "I have not found anything comparable written on this problem in the best of trading psychology classics." OCD 5 Stars "Ms. Thomas makes some analogies in her books that I have NEVER read in other trading psychology books. Excellent. Well worth the money. Made me want to look into some of her other works. I was not disappointed." Angelo 5 Stars "This book delivered significant value for me. I have not found anything comparable written on this problem in the best of trading psychology classics. The comparison to cold calling fear was brilliant and I couldn't put it down. As strange as this sounds, I literally felt my fear melting away." Rondell Neillson 5 Stars "Excellent short book on changing your trading from result oriented to process oriented. This is an excellent way of conquering your fear in trading. Also a very good section on EFT exercises that can be used to help with all mental blocks that come from fear. On my way to reading her other books now." Catherine Bath 5 Stars "Fantastic book for traders who have a good system and trading knowledge but have psychological issues that interfere with their trading results. Sooooo worth the money I spent

for it. The author cuts right to the core issues around fear in trading in a way that makes it easy to see how and why it causes problems and gives solid, implementable solutions." Richard 5 Stars "I'm a futures trader and fear and stress in trading is a real obstacle to success. this book can help. I tried the simple methods described and to my amazement they seem to work. I Especially recommend that the video recommended in the book showing the method in operation is watched."

Trading Psychology Course Available at

www.traderselfcontrol.com How to Stop Over-Trading is the latest book in the trading psychology series of books by L.R. Thomas.

This book zeroes in on the specific reasons traders take trades outside their trading plan and offers simple solutions to stop over-trading forever. The truth is that if a trader consistently trades outside their strategy, even on a demo platform, they are very unlikely to succeed in trading. This book offers simple but effective solutions, just like the other L.R. Thomas trading psychology books 'Control Your Inner Trader' and 'Overcome Your Fear in Trading'. If you are skewing your trading results by taking trades that you shouldn't, then this book could change your trading, for the better, forever.

Reviewed in the United States on April 4, 2018 Of the 3 book LR Thomas collection, Which I enjoyed very much, I found this one to be the most valuable. The entire series is excellent and has some effective solutions for the problems that plague many traders. What I found most valuable was that the author explained many of the same issues I face and provided some excellent advice. Just defining the problem was enlightening. And it's great to know that I have some new tools and techniques to help me get back on track.

Raymond R I wish I had read this 90 days ago Reviewed in the United States on December 23, 2014 I don't rate books very often but feel compelled to do so with this one. True story: In three months, I over-traded and gambled away approximately 25% of my life savings. This, despite the market making new highs almost daily. I was in despair, not knowing what to do. This book gives me hope. It gives me strategies to ensure I am trading appropriately, and if I had read this book beforehand I would certainly not have been so foolish with my money.

TX Reader 2 Excellent book with plenty of ideas Reviewed in the United Kingdom on February 20, 2015 Excellent book with plenty of ideas to help me in my trading. Have implemented some already and have found them helpful.

Delores

This book explores how fear or impulsivity blocks the potential of the trader you could be. But more than just explaining HOW your fears and impulsivity negatively impact your trading, this book explains what you can DO about it. Through the use of real life vignettes, Rande tells the stories of traders like you who have wrestled with their psychological demons and conquered them. From the paralyzing hesitation of the fear of pulling the trigger to the demoralizing disaster of impulse trading to make up for prior loses, you will see how they overcame their self-limiting beliefs and achieved a disciplined, patient, impartial, and courageous mindset the Trader's State of Mind. Rande explores how these traders used Mindfulness as part of a process to develop an edge that led them to

peak performance trading. In this book you will learn how to disrupt old self limiting beliefs that block you from your potential and awaken the potential of the Inner Trader living within you.

Please note: This is the study guide notes to the course "Trader Transformation" which is 10 DVDs. The full course can be purchased at: <http://rise2learn.com> About Trader Transformation: Trader Transformation is focused on helping you with a few critical components in your trading that many people do not focus on when learning to trade. In this course you will learn: - How to block out the noise, control your emotions, and build your mind to think and trade like a professional. - How to trade more consistently by creating your own trading system and quit relying on others or feed-based websites. - How to change your behavior, renew your mind, understanding trading behavior and bring more success and freedom to your life.

"The one, only, and by far the best book synthesizing psychology and investing. In addition to providing modern, scientific knowledge about psychology, this book provides a mirror into the mind and wide breadth of knowledge of one of the leading practitioners of brief and effectual cures. Will help to cure your trading and your life." -Victor Niederhoffer, Chief Speculator, Manchester Investments Author, The Education of a Speculator and Practical Speculation "How refreshing! A book that rises above the old NLP model of the 80's and provides insights on how our relationship with the market is indeed a very personal one. Not only has Steenbarger provided some fantastic tools for the trader to transform his mindset, but he has contributed unique trading ideas as well. Brilliant!" -Linda Raschke, President, LBRGroup, Inc. "Investigate, before you invest' was for many years the slogan of the New York Stock Exchange. I always thought a better one would be, 'Investigate YOURSELF, before you invest.' The Psychology of Trading should help you increase your annual investment rate of

return. Mandatory reading for anyone intending to earn a livelihood through trading. " -Yale Hirsch, The Hirsch Organization Inc., Editor, The Stock Trader's Almanac "This highly readable, highly educational, and highly entertaining book will teach you as much about yourself as about trading. It's Oliver Sacks meets Mr. Market-extraordinary tales of ordinary professionals and individuals with investment disorders, and how they successfully overcame them. It is a must-read both for private investors who have been shell-shocked in the bear market and want to learn how to start again, as well as for pros who seek an extra edge from extra inner knowledge. Steenbarger's personal voyage into the mind of the market is destined to become a classic." -Jon Markman, Managing Editor, CNBC on MSN Money Author, Online Investing and Swing Trading "Dr. Steenbarger's fascinating, highly readable blend of practical insights from his dual careers as a brilliant psychologist and trader will benefit every investor; knowing oneself is as important as knowing the market." -Laurel Kenner, CNBC.com Columnist, Author, Practical Speculation

Revolutionary techniques that traders can implement to improve profits and avoid losses No trader, professional or individual, can afford not to have a solid risk management program integrated into his or her trading system. But finding a precise mathematical model to replace subjective decision-making processes is a challenge. Traditionally, risk management has focused solely on loss avoidance, but in Trading Risk, hedge fund risk manager Kenneth Grant presents some-thing completely new—how to manage a portfolio to minimize risk and increase profits by putting more capital at risk. Trading Risk details a risk management program that can help both money managers and individual traders evaluate which elements in a portfolio are working efficiently and which aren't. By illustrating an extremely simple set of statistical and arithmetic tools this book can help readers enhance their performance in many financial markets. Kenneth L. Grant is
