Data Runner is Johnny Mnemonic plus Speed; a world where data is physically downloaded into a person, and then that person delivers it at breakneck speeds without ever stopping. It is like a Tom Cruise chase scene from beginning to end; arms and legs pump at a furious rate, it's full of intensity, and you have a smile on your face the whole time.

Data Runner is an interesting and novel prediction of the future of data. The premise that no electronic data is secure on the web sets up a society in which to secure privacy is to physically control storage and transport. From that backdrop the characters are well developed and the story-line is well written.

Today I want to show you a watch modification that I've been working on. I'm calling it the Data Runner, and it's another F91W mod, this time going the extra mile to make something functional and nice looking. Like the previous mods that you may have seen me do, this is based on the Casio F91W, and that's down to the fact that it's THE standard for an inexpensive digital watch, striking a good balance between price, features, build quality, and worldwide availability.

I hope it'll be mandatory to have a data runner find a player who has a bounty on him first, before you get a track on a wanted player across the entire galaxy. Would mean bounty hunters would want to hook up with data runners for some quick cash on both their ends, since I assume data running ships won't have the best firepower to just get the ...

In the not-too-distant future, in what was once the old City of New York, megacorporations have taken over everything. Now even the internet is owned, and the only way to transmit sensitive information is by a network of highly skilled couriers called "data runners" who run it over the sneakernet. It is a dangerous gig in a dirty world, but Jack Nill doesn't have much choice in the matter. A brilliant young math whiz and champion of parkour, Jack must become one of these data runners in order to get his father out of a major gambling debt. When a mysterious stranger loads Jack's chip with a cryptic cargo that everybody wants, he soon becomes the key figure in a conspiracy that could affect the entire North American Alliance. Now it's all up to Jack. With the help of his best friend, Dexter, and a girl who runs under the name Red Tail, Jack will have to use all his skills to outrun the retrievers and uncover the truth before they catch him and clip him for good.

This book attempts to provide to provide concise, critical, synthetic and up-to-date coverage of different aspects of plant disease management. The first eleven chapters are devoted to principles and related aspects and the remaining seven to management practices based on them. The book attempts to capture some of the images of such rapidly expanding fields as host-parasite recognition and biotechnology even at the risk of making the subject a bit conceptual. This book is intended to serve as a text for advanced undergraduate and graduate students of plant pathology and related disciplines and as a reference source for teachers, researchers, students, and technologists.

An updated edition of an authoritative running guide, edited by the winner of the 1968 Boston Marathon, explains key fitness and nutritional practices, providing coverage of everything from proper hydration and selecting appropriate footwear to improving endurance and marathon training. Original.

Computing Projects In Visual Basic. NET has been written mainly for students of AS/A level Computing, 'A' level ICT and Advanced VCE ICT. The book covers everything needed to write a large program.

Draws on the latest scientific advice to provide an up-to-date nutrition reference specifically tailored to the needs of runners, covering such topics as proper hydration, customizing a diet for personal training needs, and speeding up recovery times. Original. 15,000 first printing.

July's issue of Clinics in Sports Medicine is dedicated to the Runner and guest edited by Dr. Robert Wilder, Associate Professor of PM&R and Medical Director of the Runner's Clinic at the University of Virginia. Dr. Wilder and a team of expert contributors discuss all aspects of running, including biomechanics and kinematics, flexibility, exertional compartment syndrome, patellofemoral pain syndrome, stress fractures, exercise-associated collapse, and more. Several chapters focus on special considerations for certain types of runners: children, women, injured runners, and those with osteoarthritis.

A comprehensive, state-of-the-art resource for runners furnishes up-to-date information on training, nutrition, injury prevention, technique, equipment, gadgets, workouts, and other ways to help enhance performance among runners of all skill levels. Original. 15,000 first printing.

Runner's World magazine aims to help runners achieve their personal health, fitness, and performance goals, and to inspire them with vivid, memorable storytelling.
