Our bestselling introduction to graphic design is now available in a revised and updated edition. In *Graphic Design: The New Basics*, bestselling author Ellen Lupton (*Thinking with Type*, *Type on Screen*) and design educator Jennifer Cole Phillips explain the key concepts of visual language that inform any work of design, from logo or letterhead to a complex website. Through visual demonstrations and concise commentary, students and professionals explore the formal elements of twodimensional design, such as point, line, plane, scale, hierarchy, layers, and transparency. This revised edition replaces sixty-four pages of the original publication with new content, including new chapters on visualizing data, typography, modes of representation, and Gestalt principles, and adds sixteen pages of new student and professional work covering such topics as working with grids and designing with color.

This guide aims to move students away from a cut-and-paste mentality and refocus design instruction on the fundamentals of form (starting from such basics as point and line) in a critical, rigorous way informed by contemporary media, theory and software systems.

How do designers get ideas? Many spend their time searching for clever combinations of forms, fonts, and colors inside the design annuals and monographs of other designers' work. For those looking to challenge the cut-and-paste mentality there are few resources that are both informative and inspirational. In *Graphic Design: The New Basics*, Ellen Lupton, best-selling author of such books as *Thinking with Type* and *Design It Yourself*, and design educator Jennifer Cole Phillips refocus design instruction on the study of the fundamentals of form in a critical, rigorous way informed by contemporary media, theory, and software systems

Creativity is more than an inborn talent; it is a hard-earned skill, and like any other skill, it improves with practice. *Graphic Design Thinking: How to Define Problems, Get Ideas, and Create Form* explores a variety of informal techniques ranging from quick, seat-of-the-pants approaches to more formal research methods for stimulating fresh thinking, and ultimately arriving at compelling and viable solutions. In the style with which author Ellen has come to be known hands-on, up-close approach to instructional design writing brainstorming techniques are grouped around the three basic phases of the design process: defining the problem, inventing ideas, and creating form. Creative research methods include focus groups, interviewing, brand mapping, and co-design. Each method is explained with a brief narrative text followed by a variety of visual demonstrations and case studies. Also included are discussions with leading professionals, including Art Chantry, Ivan Chermayeff, Jessica Helfand, Steven Heller, Abott Miller, Christoph Niemann, Paula Scher, and Martin Venezky, about how they get ideas and what they do when the well runs dry. The book is directed at working designers, design students, and anyone who wants to apply inventive thought patterns to everyday creative challenges.

Extra Bold is the inclusive, practical, and informative (design) career guide for everyone! Part textbook and part comic book, zine, manifesto, survival guide, and self-help manual, *Extra Bold* is filled with stories and ideas that don't show up in other career books or design overviews.

- Both pragmatic and inquisitive, the book explores power structures in the workplace and how to navigate them.
- Interviews showcase people at different stages of their careers.
- Biographical sketches explore individuals marginalized by sexism, racism, and ableism.
- Practical guides cover everything from starting out, to wage gaps, coming out at work, cover letters, mentoring, and more. A new take on the design canon.
- Opens with critical essays that rethink design principles and practices through theories of feminism, anti-racism, inclusion, and nonbinary thinking.
- Features interviews, essays, typefaces, and projects from dozens of contributors with a variety of racial and ethnic backgrounds, abilities, gender identities, and positions of economic and social privilege.

Adds new voices to the dominant design canon. Written collaboratively by a diverse team of authors, with original, handcrafted illustrations by Jennifer Tobias that bring warmth, happiness, humor, and narrative depth to the book. *Extra Bold* is written by Ellen Lupton (*Thinking with Type*), Farah Kafei, Jennifer Tobias, Josh A. Halstead, Kaleena Sales, Leslie Xia, and Valentina Vergara.

This anthology turns a critical eye on advertising, newspapers, commercial photography.

This comprehensive overview of recent American graphic design, draws examples from avant-garde and mainstream typefaces; expression of corporate identity through logos, society's image of the design profession; and publications, from underground fanzines to multimedia projects.

Published on the occasion of an exhibition held at the Walker Art Center, Minneapolis, Minn. and four other institutions between Oct. 22, 2011 and Dec. 2013.

Drawing from Merrill C. Berman's spectacular international private collection of 20th-century posters, ads, photomontages, and graphic ephemera, this book showcases more than 200 examples of progressive graphic design from the 1920s and 1930s. The book accompanies a traveling exhibition through 1999. 100 color and 100 b&w illustrations.
