Audisee® eBooks with Audio combine professional narration and sentence highlighting to engage reluctant readers! Did you know that astronauts work on Earth and in space to study places beyond our planet's atmosphere? But there's a lot more to space travel than just research. With no gravity, a wild schedule that includes sixteen sunrises and sixteen sunsets every twenty-four hours, and no fresh food, it can be a challenge to stay healthy in orbit. Public and private space agencies are working to solve these problems as humans travel farther and more frequently into the depths of space. Learn more about the daily lives of astronauts and how they live, work, and prepare for the future in space.

Few frontiers have inspired human imagination as much as the final frontier: outer space. What seemed impossible a mere hundred years ago has now been accomplished, as humans have sent astronauts into orbit and onto the moon, and rovers and satellites continue to travel farther out, beaming invaluable data about our universe back to Earth. This illustration-packed title covers the most outstanding events since humans landed on the moon. Missions to the different planets are presented, as are images and details of space stations, satellites, and Mars rovers. Even reluctant readers won ' t be able to stay away from this visual delight.
