~~From Silver to Cocaine: Latin American Commodity Chains ...~~

“ From Silver to Cocaine is an important and innovative collection. It provides a corrective to the purely national studies of commodities and of export sectors, and to studies that posit influence in only one direction, focusing on the international penetration of capital and trade into Latin America. This book makes a strong statement about ...

Some of the commodities to be studied include silver, guano, sugar, coffee, rubber, bananas and cocaine. The selection of commodities to be studied reflects the varied nature of commodity production and consumption in Latin America and beyond. It also makes possible cross-country comparisons, since many of these commodities were produced in more than one country, often in very different ...
