Bar-room brawls. A no-nonsense U.S. Marshal. Deviants. Plenty of other action. A beautiful woman, and much more. I applaud Derrick and the work he put into writing a story like this. I just finished "The Tainted Dollar," and I'm already placing the second book of this series in my cart for purchase.

In this compelling memoir, Federal Agent Derrick Taylor tells the story of his twenty-five-year career with the United States Department of Homeland Security. Over the course of his career, Taylor became a top federal agent for Immigration and Customs Enforcement (ICE). He worked as a Fugitive Apprehension Officer, tracking down and arresting hundreds of hard-core violent criminals. He managed a Prosecution Unit that convicted over one thousand criminal aliens. He was awarded the Medal of Valor from the Department of Homeland Security, the Secretary's Award for Excellence, and the City of Los Angeles Medal of Honor. In 1997, while serving a Federal Warrant of Deportation, Taylor was shot five times by a gang member . . . and lived to tell about it. But throughout his illustrious career he also witnessed countless cases of corruption and discrimination within the Department of Homeland Security. Could anything be done to change the culture and expose the unfairness? Taylor decided his answer was yes. This book chronicles Taylor's varied and intriguing career and personal life, culminating in his highly charged lawsuit against the Department of Homeland Security, and its surprising outcome.

The classic work on American racism and the struggle for racial justice In Faces at the Bottom of the Well, civil rights activist and legal scholar Derrick Bell uses allegory and historical example to argue that racism is an integral and permanent part of American society. African American struggles for equality are doomed to fail so long as the majority of whites do not see their own well-being threatened by the status quo. Bell calls on African Americans to face up to this unhappy truth and abandon a misplaced faith in inevitable progress. Only then will blacks, and those whites who join with them, be in a position to create viable strategies to alleviate the burdens of racism. "Freed of the stifling rigidity of relying unthinkingly on the slogan "we shall overcome," he writes, "we are impelled both to live each day more fully and to examine critically the actual effectiveness of traditional civil rights remedies." Faces at the Bottom of the Well is urgent and essential reading on the problem of racism in America.

From the author of the extraordinary Vampire Chronicles comes a huge, hypnotic novel of witchcraft and the occult through four centuries. Demonstrating, once again, her gift for spellbinding storytelling and the creation of legend, Anne Rice makes real for us a great dynasty of witches—a family given to poetry and to incest, to murder and to philosophy; a family that, over the ages, is itself haunted by a powerful, dangerous, and seductive being. On the veranda of a great New Orleans house, now faded, a mute and fragile woman sits rocking . . . and The Witching Hour begins. It begins in our time with a rescue at sea. Rowan Mayfair, a beautiful woman, a brilliant practitioner of neurosurgery—aware that she has special powers but unaware that she comes from an ancient line of witches—finds the drowned body of a man off the coast of California and brings him to life. He is Michael Curry, who was born in New Orleans and orphaned in childhood by fire on Christmas Eve, who pulled himself up from poverty, and who now, in his brief interval of death, has acquired a sensory power that mystifies and frightens him. As these two, fiercely drawn to each other, fall in love and—in passionate alliance—set out to solve the mystery of her past and his unwelcome gift, the novel moves backward and forward in time from today's New Orleans and San Francisco to long-ago Amsterdam and a chateau in the France of Louis XIV. An intricate tale of evil unfolds—an evil unleashed in seventeenth-century Scotland, where the first "witch," Suzanne of the Mayfair, conjures up the spirit she names Lasher . . . a creation that spells her own destruction and torments each of her descendants in turn. From the coffee plantations of Port au Prince, where the great Mayfair fortune is made and the legacy of their dark power is almost destroyed, to Civil War New Orleans, as Julien—the clan's only male to be endowed with occult powers—provides for the dynasty its foothold in America, the dark, luminous story encompasses dramas of seduction and death, episodes of tenderness and healing. And always—through peril and escape, tension and release—there swirl around us the echoes of eternal war: innocence versus the corruption of the spirit, sanity against madness, life against death. With a dreamlike power, the novel draws us, through circuitous, twilight paths, to the present and Rowan's increasingly inspired and risky moves in the merciless game that binds her to her heritage. And in New Orleans, on Christmas Eve, this strangest of family sagas is brought to its startling climax.
